# UWE Jetstream Cross-Current Swim Jet System

UWE Jetstream  
Counter-Current  
Front Panel

FÜR FREUNDE VON AUSSERGEWÖHNLICHEM DESIGN IST UWE JETSTREAM  
OFT LIEBE AUF DEN ERSTEN BLICK.

FOR PEOPLE WITH A PASSION FOR REMARKABLE  
DESIGN, UWE JETSTREAM IS OFTEN LOVE AT FIRST SIGHT.

Exclusively Distributed By

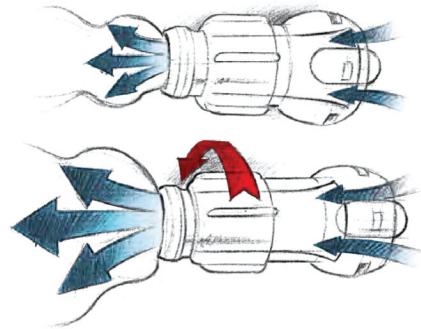

### FOR ATHLETICISM.

The UWE Jetstream Counter-Current System from Germany was inspired by the mussel, and even its appearance makes waves. Powered by a 4.5HP pump system, up to 18 litres-per-second can be pumped through its fully adjustable swivel nozzle, suitable for all level of swimmers.

### FOR AESTHETIC.

We believe UWE Jetstream Counter-Current System front panel is beautiful to be part of your swimming pool. Its elegant chrome finishing and simplicity design will be the master stroke for any swimming pool.

The swivel nozzle is fully adjustable with the intensity of the flow can be fully regulated – in either direction.

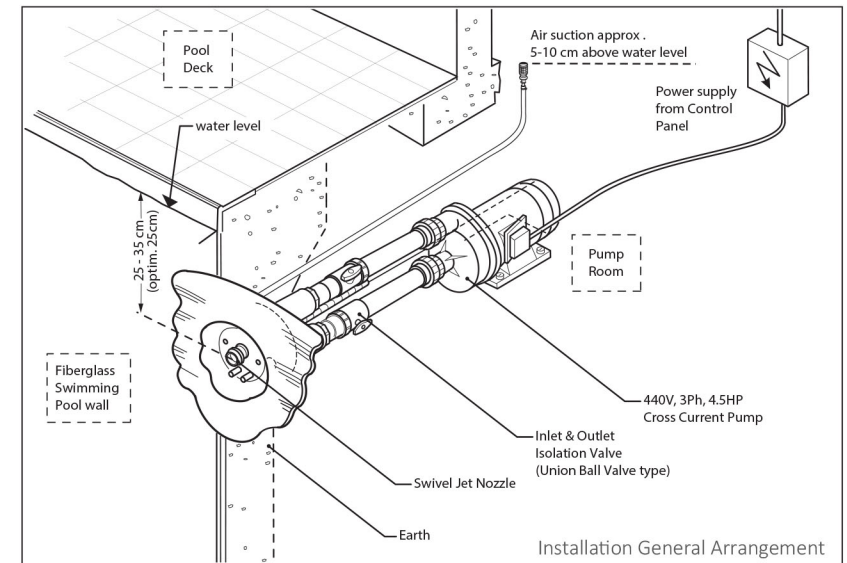

### FOR AIR BUBBLE BATHS AND MESSAGES.

With UWE Jetstream you can do far more than just try your strength at swimming. Turn the knob and the thrusting flow from the nozzle changes to a soft shower of bubbles. Use the massage hose and the back jet to loosen up tense muscles and relax exactly those parts of your body which need it most. Or turn the pressure down to half power and stand right in front of the nozzle for a powerful all-over massage.

## TECHNICAL SPECIFICATIONS
